ALICEHOME

MORE TIME FOR THE LIFE YOU WANT

It's the most convenient (and safest) way to get it done.

AliceHome is a hospitality minded team here to help you save time, have fewer chores, and live the lifestyle you truly want. Our home managers support you both in and outside the home, using local service partners we've evaluated and selected to ensure that your services are high quality and well priced. Each week your personal home manager will visit your apartment to refresh the home, take care of your todos, and manage any additional services you've selected. You can stay connected from wherever you are via our AliceHome app.

HOW IT WORKS

1. Sign-up for AliceHome at The Confluence online: thanksalice.com/TheConfluence

2. Meet your home manager at a time that's convenient for you to do an in-home walkthrough, and learn your needs and preferences.

3. Enjoy ongoing home management to keep your home running smoothly week after week.

A T

YOUR HOME MANAGER

An AliceHome manager is your dedicated help for tasks large and small.

Think of it like a personal assistant for your home. We can help you keep up with recurring weekly items like laundry and dry cleaning, or handle one off to-dos like knife sharpening or taking items to be donated. Your home manager will make visits to your apartment twice a week on set days to coordinate services, and perform a Home Refresh. Over time they'll learn your preferences and get better and better at anticipating your needs.
